For Anna

Trying one more time. I changed all the files to ascii in WordPerfect, saved them, ftp'd them to my directory, ftp'd them to tango, and you should have something readable this time. All the lines and formatting are gone, but the characters are there. I did NOT send the tasks.txt (looked at it and it's irrelevant for you 'ens). The disk is in the mail, and I would be happy to create custom originals for Jan if she wants me to.

Other than our usual midwest teams, these teams replied with regrets but wanted to be notified of future ales (I forgot to include the list in my packet to Jan):
