We expect about 150-180 people (adults only), although numbers could range from 120-250. If camp is willing, negotiate on a flat fee for the use of the space basis (without regard to the exact number of campers). One camp estimated possible rental of \$2-500. We probably can afford more, probably up to \$1,000-1,500. maximum, not including any food provided by the camp.

If camp insists on negotiating on a per head basis, get costs assuming (a.) 125 campers; (b.) 175 campers; (c.) 225 campers.

If camp can provide food service, get estimates for each of the following five options on a per head basis:

- 1.) 3 Breakfasts + 2 Dinners (evening meal) + 1 lunch
- 2.) " " " "
- 3.) " + 1 Dinner
- 4.) 2 Dinners
- 5.) no meals provided by camp

Find out how each of these options would affect the cost of space/facilities rental.

We feel that it should be possible to provide good, hearty, adult-type meals for options 1. & 2. for about \$10/person for the weekend.

All negotiations should be recorded in a written letter, contract, etc., and a xerox copy left on file with the committee (copy of letters from the camp, too, etc.)
