

2

thanks to all who helped - especially Jim Linton who did a lot of troubleshooting while I was workshopping etc.

A Few General Feedback Comments

(not an exhaustive examination, but several things that occurred to me)

- (+) - everything seemed to flow quite smoothly, on schedule and w/ good temper
 - good to have press releases in local papers, radio, TV news preview / coverage etc.
 - great printed info re guidelines, addresses, info, newstags, maps & pre-event info etc.
 - buses good
 - food and its preparation excellent
 - security fine, but probably more elaborate than necessary
 - tours went well Saturday & Sunday (nice not to have far to drive on Sunday)
 - all workshops good, including extra Monday a.m. (but good to leave the Monday ones informal)
- (-) - larger hall (higher ceiling & ability for longer sets) and wood floor would have been much preferable ... I know location is a factor
 - I think I would prefer callers from within the morris gathering - taking turns so no one is too burdened w/ calling.
