Coaches were on time, drivers friendly. * Special Note: Coach company tried to charge us for an additional \$300.00. Said their drivers did not get back in the allotted amount of time, then it was that the drivers arrived at the garage early to prep the coaches. Insistence paid off, Consider it a donation to your group " she said. * Consider this...meet with the company rep. in person, get everything in writing, have the drivers sign a sheet when they arrive and sign and time when they are ready to return to the garage, and finally specify route to take, review with each driver....let them know that no more money is available for more time/money for them.

We were not able to use school buses for the ale , they would have had to come from Omaha, the cost would have been about the same or greater.
