American Business Information, Inc. offers many other business information services, including: Mailing Lists, Sales Leads, Business Directories, Online Access, and other CD-ROM titles. For more information, click on Help and select Catalog.

* Our Credit Rating Codes are indicators of probable ability to pay. They are based on business demographic factors such as number of employees, years in business, industry stability and barriers to entry, and government data. While they do not reflect actual payment history, the ratings are a good starting point. We recommend that these ratings should not be the sole factor used in making a credit decision, especially for larger dollar amounts. You must obtain more information from bank and trade references, local credit bureaus, or other sources before extending credit. We will not be liable for any losses resulting from the use of this information.
